

# MULTI FACTOR AUTHENTICATION TECHNOLOGY IMPLEMENTATION TIERPOINT

To save your client time, money, & meet the MFA requirement deadline, Evolve partnered with the MFA cybersecurity implementation specialist, **TierPoint**, to give policyholders access to one of the most enhanced MFA products in the marketplace, an automatic 15% discount, & professional oversight to complete the implementation within 30 days.

**"MFA can block over 99.9% of account compromise attacks." - Microsoft**

## What is MFA?

MFA is an essential layer of security that provides organizations with greater protection against cyber attacks and enhances their identity and access management policy. It works by requiring users to provide multiple verification factors, rather than just a username and password alone, making it much harder for malicious actors to gain unauthorized access.

## Why Tierpoint?

Evolve vetted the entire cybersecurity marketplace to specifically partner with the MFA cybersecurity specialist, TierPoint, as their product **TierPoint Clean IP™ Managed Multi-Factor Authentication** is the one of the most enhanced MFA technology solutions available, cost efficient, simple, & can sync with any 3rd party platform. In addition, TierPoint's team of technicians will oversee a successful implementation, meeting cyber insurance deadlines.

## TIERPOINT HIGHLIGHTS

### Clean IP MMFA – Standard:

TierPoint's CleanIP Managed Multi-Factor Authentication protects users' identities with a quick, cloud-based deployment. Costs include:

- \$5 per user, per month
- \$10 one time fee per user to implement

### Clean IP MMFA – Advanced:

TierPoint's CleanIP MMFA Advanced solution provides detailed visibility into the security hygiene of every device and allows for quick phishing vulnerability assessments.

- \$7 per user, per month
- \$15 one time fee per user to implement

**Added Bonus: 15% Evolve Discount**

## MFA BENEFITS:

- Stop Business Email Compromise
- Defend Against Outdated Browsers
- Minimize Risk of Password Reuse
- Train Employees on Best Practices
- Enable Enterprise Mobility

## MEET INSURANCE DEADLINES

TierPoint will work with your clients to meet insurance deadlines, like effective dates & risk management timetable conditions.
